SPIT SHINE

PRODUCT SAFETY AND TRAINING

DIRECTIONS

SINGLE PAD METHOD:

1. Clean floor thoroughly. Allow it to dry.
2. Squeeze 3 to 5 inches of Spit Shine onto floor. With a polishing pad, set a floor machine over Spit Shine and proceed to polish.
Use a 1000-3000 rpm machine for best results.

DOUBLE PAD METHOD:

1. Remove any gross soil from floor. Dust mop thoroughly.
2. Squeeze 3 to 5 inches of Spit Shine onto floor. With a cleaning pad, set a floor machine over Spit Shine and proceed to clean.
3. After cleaning, polish the floor to a high gloss with a polishing pad.

NOTE: For stripping and maintaining asbestos containing tile, follow OSHA guidelines or EPA guidelines. Use of this product to deep clean prior to recoating is not recommended.

COVERAGE: One quart covers up to 50,000 square feet.
